

# Weekly Planner for kids

Thank you for downloading a weekly planner for your daughter.

By using this planner, your little girl will learn how to be organised and responsible.

You simply print it out and have her write down what she needs to remember each day.

I have also attached a sample of a completed planner as a reference. You may find that your daughters weeks will all look the same, with the addition of a few new activities every now and then (which she can easily add to the planner). The more repetitive her weeks are, the better as it gives her a solid structure and routine.

My daughter chooses to keep her planner on her desk in her bedroom, as she spends a lot of time there. Your daughter may choose to keep hers on the fridge or somewhere that's very handy.

I hope you (and your daughter) find the planner helpful.

Alli x

# MY WEEK LOOKS LIKE THIS!
